CLERK'S OFFICE
NOTICE OF PUBLIC HEARING
DOCKET NO. 2014-81-S**

Application of Threatt Enterprises, Inc. for the Establishment of Rates and Charges for the Provision of Sewer Services (Quail Haven Subdivision)

Threatt Enterprises, Inc. ("Applicant" or "Company") filed an Application with the Public Service Commission of South Carolina ("the Commission") for the establishment of rates and charges for the provision of sewer services in the Quail Haven Subdivision in Pickens County, South Carolina. The Application was filed pursuant to S.C. Code Ann. §§58-5-210 and 10 S.C. Code Ann. Regs. 103-501, 103-504, and 103-541. The Application states that the Quail Haven Subdivision includes 142 single family units and 12 apartment units with approximately 10 suitable lots for home sites remaining in this development. The Applicant has been in existence since 1971 and constructed a wastewater treatment facility ("WWTF") and associated collection system ("CS") in 1972 which serves homes in the Quail Haven Subdivision in Pickens County. The Application reveals that the Company has provided the cost for the operation and maintenance of the WWTF and CS; has not charged the residents of the Subdivision sewer fees; and the Quail Haven Subdivision is not presently served by any public utility providing sewer service subject to the jurisdiction of the Commission. The Company seeks Commission approval of proposed rates as outlined in Exhibit B of its Application. On pages three and four of the Application, the Applicant sets justification for its proposed sewer rate, including, but not limited to, the following reasons: to allow the Company to recover its costs and expenses of providing service in order to provide reasonable and adequate service to its customers and to comply with standards and regulations set by the Department of Health and Environmental Control and other governmental agencies which regulate the environmental aspects of the Applicant's business.

THE PROPOSED RATES AND CHARGES ARE SET FORTH BELOW
(The complete rate schedule is available from the Company at the address below and on the Commission's website at www.psc.sc.gov)

Monthly Charges
Monthly charge per single-family home, condominium, mobile home, or apartment unit: \$35.00 per unit

Non-Recurring Charges

A. Sewer service connection charge for new units: \$300.00

B. Customer Account Charge - for new customers only.

A one-time fee to defray the costs of initiating service: \$25.00

C. Solid Interceptor Tanks

For all customers receiving sewage collection service through an approved solid interceptor tank, the following charges shall apply:

Pumping Charge

At such time as the Utility determines through its inspection that excessive solids have accumulated in the interceptor tank, the Utility will arrange for the pumping tank and will include \$150.00 as a separate item in the next regular billing to the customer.

Pump Repair or Replacement Charge
If a separate pump is required to transport the customer's sewage from solid interceptor tank to the Utility's sewage collection system, the Utility will arrange to have the pump repaired or replaced as required and will include the cost of such repair or replacement as a separate item in the next regular billing to the customer and will include the cost of such repair or replacement in the next regular period.

Visual Inspection Port

In order for a customer who uses a solid interceptor tank to receive sewage service from the Utility or to continue to receive such service, the customer shall install at the customer's expense a visual inspection port which will allow for observations of the contents of the solid interceptor tank and extraction of test samples therefrom. Failure to provide such visual inspection port after timely notice of not less than thirty (30) days shall be just cause for interruption of service until a visual inspection port has been installed.

Notification and Disconnection Charge
A. Notification Fee: A fee of fifteen dollars (\$15.00) shall be charged to each customer per notice to whom the Utility mails the notice as required by Commission Rule 103-535.1 prior to service being discontinued. This fee assesses a portion of the clerical and mailing costs of such notices to the customers creating the cost.

B. Disconnection Charge: In addition to any other charges that may be due, in those cases where a customer's service has been disconnected for any reason as set forth in Commission Rule 103-532.4, the customer is found to have vacated his premises or the customer has shown his intent to vacate his premises and the imposition of a reconnection charge is not feasible, a disconnection fee in the amount of \$500.00 shall be due at the time the customer disconnects service. Where an older valve has been previously installed, a disconnection fee of forty dollars (\$40.00) shall be charged.

Late Payment Charges

Any balance unpaid within twenty-five (25) days of the billing date shall be assessed a late payment charge of one and one-half percent (1½%) for each month, or any part of a month, that said payment is late.
